

Giving Tuesday

December 3, 2024

There are many Children in Nigeria that have little or no opportunity to go to school, while they are left to work the farm or do the wood collecting and water carry for the work of the family. Many want to go to school but there is no opportunity or the cost is just too much for the family. Here in Egbe, Kogi state, Nigeria we are just doing that for some 350 children at this time. But is cost to continue the work. We offer school basically free for the families but we need to raise the finances for the salary of the teachers. A teacher trained to teach here cost approx. \$1,000 a year. We have 11 teachers on staff. We want to begin another bush school and add two more teachers to the staff. Any amount will help.

Our goal is to raise \$10,000

Donate to: <https://donations.sim.ca/projects/FulaniOutreachCenter>

We are working to reach the Fulani people in the bush with education to help build the bridge of hope for them. With your continued help we can extend that bridge to another community. There are over 150 children waiting for the opportunity to go to school. With this opportunity of “Giving Tuesday” we extend the chance for you to give to this dream and this hope.

Every gift is an answer to get closer to this dream.....

Every child needs a chance to go to school. But not all children will get that chance. This could change for some of these children if a school was close to them. Maybe even one day, if we could dream, that one of these children could be a teacher themselves for other children. Could you help make this dream come true?
